MY ROLE IN MY ENHANCED RECOVERY...

“I didn’t know I had a role”

says Nick (patient)

“I had always thought my role before going into hospital before an operation was to give myself up to other people and to shut off my mind to what is happening to me... if I knew what I know now, I would have taken more of a role in my recovery.”

HEALTHY STEPS TO IMPROVE MY RECOVERY BEFORE MY OPERATION

FOOD & DRINK

Eat well, your body needs fuel to repair.

SLEEP, REST & PLAY

Staying physically active before your operation will help you get better, faster. Try to relax. Try not to worry and get together with family and friends.

SMOKING & ALCOHOL

If you do drink or smoke, use this as an opportunity to stop or cut down. This will help your recovery and reduce the risk of complications.

PRACTICAL STEPS TO SUPPORT MY RECOVERY

Set up your plans for going home before you come into hospital. The time you will be in hospital is not long.

This information might be useful to talk through with a friend, carer or family member to ensure that you have the practical support in place to support your recovery.

MY TO DO LIST

- I KNOW MY DATE FOR GOING HOME
- I HAVE TOLD THE RIGHT PEOPLE WHERE I WILL BE
- I HAVE ARRANGED MY TRANSPORT FOR GETTING THERE AND BACK
- I HAVE PACKED A SMALL BAG WITH THE RIGHT STUFF (e.g. CLOTHES, READING MATERIAL)
- I HAVE REMEMBERED TO TAKE MY MEDICATION WITH ME
- I HAVE CHECKED I HAVE THE RIGHT EQUIPMENT AND SUPPORT AT HOME
- WHAT ELSE DO I NEED TO ASK?

**DON'T BE AFRAID,
IF NOT SURE, ASK!**

HEALTHY STEPS TO IMPROVE MY RECOVERY WHILST STILL IN HOSPITAL

I NEED TO...

- Take an active part in my recovery - follow the advice and instructions of my clinical team
- Be positive about my recovery
- Start to eat and drink - my body needs fuel to repair (don't be surprised to find a cup of tea and a snack box available in the recovery room straight after your operation)
- Go easy, this is exercise to help with my recovery not to add more fatigue. I need to keep practicing moving my arms, legs, doing my exercises, walking, before and after my operation
- Set myself a daily goal... little steps go a long way

DON'T BE AFRAID TO ASK QUESTIONS AND FOR INFORMATION TO BE REPEATED. IF YOU ARE NOT SURE... SAY SO

EXAMPLE OF GOALS YOU MIGHT SET

MY GOALS

DAY OF SURGERY

- SIT OUT
- DRINK
- EAT

DAY ONE

- SIT OUT
- WALK
- EAT

DAY TWO

- WALK
- SHOWER
- DRESS

BUT REMEMBER, WE ARE ALL INDIVIDUALS, DON'T WORRY IF YOU DON'T REACH YOUR GOAL EVERY DAY... A FEW STEPS ALSO MAKE A DIFFERENCE

- WHEN AM I ABLE TO RESUME INTIMATE RELATIONS?
- WHAT ELSE DO YOU NEED TO KNOW?

STAY IN TOUCH - SUPPORT
IS THERE FOR YOU AT EVERY
SINGLE STEP, BUT DO
YOU KNOW WHO TO
CONTACT?

GETTING BETTER SOONER

It might be useful to keep a diary or log so you can track your daily feelings and goals to help you on the road to recovery

How am I feeling?

What are my goals?

How much am I eating and drinking?

How active have I been?

How much sleep and rest have I had?

What am I proud of achieving?
